Ship Desk — \$9 USD

What it is

Ship Desk is an AI bot template that helps you move work from staging to production with tip-lock discipline, a fail-closed commerce checklist, weekday ship digests, and draft-only outbound messages. Intro price while the checklist is proven.

Features

- Tip-lock staging → production handoff
- Fail-closed commerce checklist before go-live
- Weekday ship digests
- Draft-only outbound (no auto-send)

Who can use it

Operators and builders who ship software or content while commerce surfaces must stay fail-closed until deliberately opened.

How to use it

- 1 Buy on Capabase and open the bot template.
- 2 Connect only the accounts you choose; you remain in control.
- 3 Run the staging→production checklist and tip-lock the ship.
- 4 Review weekday digests and draft outbound before anything sends.

Price

\$9 USD · Sold by Double Slit LLC on Capabase.

Surface Hold Check — \$49 USD

What it is

Surface Hold Check scans public sites and social surfaces for buy CTAs and prices while commerce is fail-closed. It returns PASS/FAIL snippets and keeps outbound draft-only.

Features

- Scan public sites and social for buy CTAs and prices
- Aligned with commerce fail-closed / surface hold
- PASS / FAIL snippets you can paste
- Draft-only outbound

Who can use it

Teams holding public buy buttons and prices closed while product or policy work continues.

How to use it

- 1 Buy on Capabase (checkout on Capabase).
- 2 Point the bot at the public URLs or handles you want checked.
- 3 Review PASS/FAIL snippets for each surface.
- 4 Keep drafts only — you decide what publishes.

Price

\$49 USD · Sold by Double Slit LLC on Capabase.

Creator Pay Desk — \$49 USD

What it is

Creator Pay Desk is a readiness checklist for Creator Rewards and Capabase setup. It returns CLEAR or NEEDS ACTION, drafts posts, and makes no payout guarantees.

Features

- Creator Rewards + Capabase readiness checklist
- CLEAR / NEEDS ACTION outcomes
- Draft posts for follow-up
- No payout, eligibility, or sales guarantees

Who can use it

Creators and operators preparing Capabase or Creator Rewards surfaces who need a structured readiness pass.

How to use it

- 1 Buy on Capabase.
- 2 Walk the readiness checklist with the bot.
- 3 Act on CLEAR vs NEEDS ACTION items.
- 4 Use draft posts only after you review them.

Price

\$49 USD · Sold by Double Slit LLC on Capabase.

Template Scrub Desk — \$59 USD

What it is

Template Scrub Desk reviews profiles, skills, routines, and export text for secrets and PII before you share publicly. Outcomes are CLEAR or NEEDS ACTION.

Features

- Scrub profiles, skills, routines, and export text
- Looks for secrets and PII before public share
- CLEAR / NEEDS ACTION outcomes
- You decide what to redact or keep

Who can use it

Anyone packaging bot templates, profiles, or skill packs for public or shared use.

How to use it

- 1 Buy on Capabase.
- 2 Paste or attach the text you plan to share.
- 3 Review CLEAR / NEEDS ACTION findings.
- 4 Redact and re-check before publishing.

Price

\$59 USD · Sold by Double Slit LLC on Capabase.

Connector Scope Check — \$49 USD

What it is

Connector Scope Check is a minimum-scope connector checklist you run before attaching Gmail, Drive, Stripe, GitHub, or calendar. It never connects accounts for you.

Features

- Minimum-scope checklist for common connectors
- Covers Gmail, Drive, Stripe, GitHub, calendar patterns
- Never connects accounts on your behalf
- You approve every attachment yourself

Who can use it

Builders attaching third-party connectors who want a deliberate, least-privilege pass first.

How to use it

- 1 Buy on Capabase.
- 2 Run the checklist for each connector you plan to attach.
- 3 Confirm minimum scopes before you connect anything.
- 4 Connect accounts yourself in the target platform — the bot does not.

Price

\$49 USD · Sold by Double Slit LLC on Capabase.

Release Safety Bundle — \$99 USD

What it is

Release Safety Bundle packages three Double Slit LLC AI bot templates for operators who are about to ship or list and want a fail-closed pass first: Surface Hold Check, Template Scrub Desk, and Connector Scope Check.

Features

- Surface Hold Check — scan for buy CTAs and checkout while commerce is fail-closed
- Template Scrub Desk — scrub exports for secrets and PII before share
- Connector Scope Check — minimum-scope checklist before attaching accounts
- Ordered runbook: Surface Hold → Template Scrub → Connector Scope

Who can use it

Operators about to ship or Capabase-list who want the three fail-closed checks in one purchase.

How to use it

- 1 Buy on Capabase and open the wrapper bot template.
- 2 Complete getting-started for the surfaces you ship.
- 3 Add and run the three included checks in order.
- 4 Keep drafts only — you approve every send, post, or list.

Price

\$99 USD · Sold by Double Slit LLC on Capabase.

Capabase Seller Desk — \$129 USD

What it is

Capabase Seller Desk is an AI bot template for founders who list Grok Bot templates on Capabase and need a repeatable listing-readiness checklist before they hit publish. It drafts About, how-to-use, and screenshot notes; it never submits for you.

Features

- Listing-fields readiness checklist (CLEAR / NEEDS ACTION)
- Legal disclaimer paste gate
- Sample-output and screenshot checklist
- Draft About / How-to-use notes — never submits Capabase or posts without your yes

Who can use it

Founders and sellers preparing Capabase listings who want a structured readiness pass before publish.

How to use it

- 1 Buy on Capabase and open the bot template.
- 2 Complete getting-started with the product job, package contents, and target price band.
- 3 Run the seller check and resolve each CLEAR / NEEDS ACTION item.
- 4 Review drafted copy yourself; approve any Capabase listing separately.

Price

\$129 USD · Sold by Double Slit LLC on Capabase.

Fleet Scrub Desk — \$149 USD

What it is

Fleet Scrub Desk is an AI bot template for founders and agencies who export or Capabase-list several bots at once and need one batch leak report before anything goes public. Paste-only; never publishes or lists without your yes.

Features

- Batch paste-only scrub across multiple bot exports
- CLEAR / NEEDS ACTION matrix per bot with exact cites
- Flags common leak patterns without inventing matches
- Never publishes, Capabase-lists, or posts without your explicit yes

Who can use it

Founders and agencies packaging multiple bot exports who need one fleet leak report before share.

How to use it

- 1 Buy on Capabase and open the bot template.
- 2 Complete getting-started with inventory labels and paste order.
- 3 Paste each labeled export separately.
- 4 Review the matrix and decide what to share — the bot never publishes for you.

Price

\$149 USD · Sold by Double Slit LLC on Capabase.
